This paper provides the Audit and Standards Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit and Standards Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications <https://www.grantthornton.co.uk/en/services/public-sector-services/>

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at March 2023

Financial Statements Audit 2021/22 and 2022/23

We reported the findings from our audit in our Audit Findings Report in November 2022, and issued an unqualified opinion on 29 November before the deadline of 30th.

The Accounts and Audit (Amendment) Regulations 2022 (SI 2022 No. 708) came into force on 22 July 2022 extending the deadline for publishing audited local authority accounts for 2021/22 to 30 November 2022. From 2023/24 the audit deadline changes to 30 September for years up to 2027/28.

We are due to commence our 2022/23 interim audit work this month in advance of the final accounts audit work later in the year.

We will bring our 2022/23 audit plan to the July committee meeting. This will set out the risks we have identified in relation to the audit and our response to those risks.

Value for Money

The new Code of Audit Practice (the “Code”) came into force on 1 April 2020 for audit years 2020/21 and onwards. The most significant change under the new Code was the introduction of an Auditor’s Annual Report, containing a commentary on arrangements to secure value for money and any associated recommendations, if required.

The new approach is more complex, more involved and is planned to make more impact.

Under the 2020 Code of Audit Practice, for relevant authorities other than local NHS bodies auditors are required to issue our Auditor’s Annual Report no later than 30 September or, where this is not possible, issue an audit letter setting out the reasons for delay.

As a result of the ongoing pandemic, and the impact it has had on both preparers and auditors of accounts to complete their work as quickly as would normally be expected, the National Audit Office updated its guidance to auditors to allow us to postpone completion of our work on arrangements to secure value for money and focus our resources firstly on the delivery of our opinions on the financial statements. This is intended to help ensure as many as possible could be issued in line with national timetables and legislation. The extended deadline for the issue of the Auditor’s Annual Report is now no more than three months after the date of the opinion on the financial statements.

We have been unable to meet the three month extended timetable. Although the work is substantially complete we are awaiting some final information from the Council before we can issue the Auditor’s Annual Report 2021/22. The information was requested some time ago and this delay has meant we are outside the 3 month extended deadline.

Other areas

Certification of claims and returns

We certify the Authority's annual Housing Benefit Subsidy claim in accordance with procedures agreed with the Department for Work and Pensions (DWP). The certification work for the 2021/22 claim began in December 2022 and is currently in progress and due to be completed this month.

Meetings

We hold ongoing meetings with key officers during the year and recently met with Finance Officers to discuss emerging developments as part of our value for money work and to ensure the audit process is smooth and effective. We also met with your Chief Executive in January to talk over the Authority's strategic priorities and plans.

Events

We provide a range of workshops, along with network events for members and publications to support the Authority. Your officers attended our Accounts Workshop in February 2023, where we covered the financial reporting requirements for local authority accounts and gave an insight into elements of the audit approach.

Further details of the publications that may be of interest to the Authority are set out in our Sector Update section of this report.

Sector Update

Authorities continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

Exploring the reasons for delayed publication of audited local authority accounts in England – Grant Thornton

Recent performance against target publication dates for audited local authority accounts in England has been poor. There are some reasons for optimism that there will be an improvement in the timeliness of publication of audited accounts as foundations are being laid for the future.

In this report we explore the requirements for publication of draft and audited accounts and look at some of the reasons for the decline in performance against these requirements over time. Only 12% of audited accounts for 2021/22 were published by the target date of 30 November 2022. There is no single cause for the delays in completing local authority audits, and unfortunately there is no quick solution in a complicated system involving multiple parties. We consider a variety of factors contributing to delays, note the measures which have already been taken to support the local audit system and make recommendations for further improvement.

There are some reasons for cautious optimism that the system will begin to recover and there will be a gradual return to better compliance with publication targets. However, we consider that these are outweighed by a number of risk factors and that the September deadline for audited accounts set by DHLUC is not achievable in the short term and also not achievable until there is further significant change in local audit and local government.

We note the following matters that are yet to be tackled:

- clarity over the purpose of local audit
- the complexity of local government financial statements
- agreement on the focus of financial statements audit work
- an improvement in the quality of financial statements and working papers

- an agreed approach to dealing with the backlog of local government audits
- Government intervention where there are significant failures in financial reporting processes

All key stakeholders including local audited bodies, the audit firms, the Department for Levelling Up Housing and Communities, PSAA, the NAO, the FRC and its successor ARGA, CIPFA and the Institute of Chartered Accountants in England and Wales will need to continue their efforts to support a coherent and sustainable system of local audit, acknowledging that it will take time to get things back on track.

We make recommendations in our report for various stakeholders, including Audit Committees and auditors, and include a checklist for consideration by management and Audit Committees within an Appendix to the report.
