

Chair of Development Control Committee Report to Full Council 17 April 2024

The Development Control Committee in March had a busy and varied agenda with two major housing schemes, retail, leisure, residential care facilities and listed building considerations on the agenda. As Members are fully aware the two major housing schemes were referred to Full Council for consideration. All other matters on the agenda were granted planning permission. These decisions will help support our town centre by approving improvements to shop frontages on The Mall and strengthening our retail offer, supporting improvements to the listed Mechanics Theatre to improve access for the acts, shows and stage equipment and provide a care home for young people in need.

Cllr Saeed Chaudhary
