Note of Clarification – Cllr Gordon Birtwistle

Planning application FUL/2021/0273

I was asked to comment on the plans for 101 houses on land south of Rossendale Rd, I did respond with my comments on June 6th 2021 included a caveat relating to possible future expert advice.

The original plans relating to this application which I passed comment on have now been superseded by new plans that are significantly different to the original. I have made no comment on these revised plans.

The planning document relating to this application still retains a note of my original comment of the plans that have now been superseded, hence my original comments no longer are relevant.

I now request that a supplementary document is issued to put the record straight. A statement was issued to the Burnley express indicating that I was opposed to the new plans, this is clearly incorrect and needs rectifying.
