Q2 performance report 2017-18

PURPOSE

1. To inform Scrutiny Committee of the Q2 performance results.

RECOMMENDATION

2. That members consider note this report.

REASONS FOR RECOMMENDATION

3. To help inform the committee's work programme..

SUMMARY OF KEY POINTS

4. Sections 5 and 6 of this report provide performance highlights from across the Council's services. They were selected for this report on the basis of being a measure of strategic significance, or in order to highlight service performance has been particularly strong or poor.

The report does not comment on finance measures, as these are reported separately in budget monitoring reports.

Where comparison with other authorities is available for the indicators, this is also reported.

5. **On target indicators**

- Corporate: average number of days per employee lost to sickness absence.
 - On average, employees took 1.57 days during Q2 compared to 1.05 in the same period last year. However, the Council remains on target to achieve less than 6 days per employee at year end (see chart 1).
 - The latest comparison data is from 2016/17, when the Council's rate was 5.4, and the English district council average was 8.2.
- Liberata: telephone calls answered within target time.
 - With 80% of calls answered within time, this measure has recovered from last quarter, when 74% were answered on time (see chart 2).
- Liberata: average number of days to process benefits new claims and change of

circumstances.

- Against a target of 7 days, the Q2 result was 6.81. In Q2 last year, Liberata achieved 6.46 days (appendix 1, chart 2).
- The latest available data for comparison with other areas is from Q4 16/17 (this measures housing benefit processing only) and shows that Burnley's housing benefit processing time overall was 3 days, compared to the statistical nearest neighbour average of 6 days.
- Streetscene: street cleanliness- street survey results.
 - Targets for litter, detritus, graffiti and flyposting were all achieved in Q2.
- Housing and Development: % of homelessness applications determined within target time.
 - For the fourth consecutive quarter, 100% of cases were determined within the target time of 30 days, against the benchmark of 95%.
- Housing and Development: percentage of planning applications processed within target time.
 - Processing times for major, minor and "other" applications were all on target (see chart 3).
 - Major: 83%, against a target of 60%
 - Minor: 88%, against a target of 65%
 - Other: 86%, against a target of 80%
 - Using Q1 2017-18 data for comparison, Burnley performed better than the nearest statistical neighbour average for minor applications, but lower for major applications (however the number of major applications was small, with Burnley on target for 2 out of a total of 3 major applications in Q1).

6 Off target indicators

- Regeneration and Planning Policy: market footfall.
 - The Market has seen major changes over the last twelve months and footfall is lower compared to the small period last year. However, Monthly Markets are being organised at street level to help promote the variety Burnley Market has to offer, and it is envisaged that Primark will have a positive effect on both the Market and the town centre as a whole.
- Housing and Development: no. of households living in temporary accommodation.
 - At the end of the quarter, 18 households were living in temporary accommodation, against a target of 12.
 - The homelessness team has dealt with an increase in demand, and in the last quarter many of its clients had complex needs. This means it can take longer to find suitable accommodation.
 - The latest available data for comparison is from Q1 2017/18, when the rate per 1,000 population was 0.3, compared with a statistical nearest neighbour group average of 0.8.
- Liberata: council tax collection (this is a KPI).
 - Reaching 53% by the end of Q2, the collection rate is slightly below projection. This result, however, reflects a Lancashire wide trend, with no obvious explanation for this at this time.
- Liberata: wait time in the one stop shop (this is not a KPI).
 - The average wait time in the one stop shop is 11.37 minutes, against a target

- of 10 mins (see chart 4).
- Performance against this indicator remains under review, however the focus has been on improving telephone responsiveness and encouraging channel shift to online.

7 A selection of trend data relevant to the highlights above is contained in appendix 1 of this report.

FINANCIAL IMPLICATIONS AND BUDGET PROVISION

PURPOSE

1. To provide an update to the Scrutiny Committee of Burnley’s community safety performance as part of the required statutory function.

RECOMMENDATION

2. That the Scrutiny Committee notes the detail of the report.

REASONS FOR RECOMMENDATION

 - Violent Crime
 - Domestic abuse
 - Child sexual exploitation
 - Anti-social behaviour
 - Burglary
4. The priorities are reviewed on a three yearly cycle, with the next full strategic assessment due to be completed and overseen by Pennine Community Safety Partnership from April 2018.
5. Local community safety delivery in Burnley remains the responsibility of the Multi Agency Tasking and Coordinating Group which continues to work well locally.
6. Local activities and the response of the Multi Agency Tasking and Coordinating Group meeting will also take into account emerging threats identified through the Partnership Analyst and/or data provided by partner agencies and the community at monthly via the Group meetings.

SUMMARY OF KEY POINTS

Community Safety Projects and Activity in Burnley 2017/18

7. All local activities are agreed through the Multi Agency Tasking and Co-ordinating meeting and emerging and predictive threats, such as alcohol related crime in the run up to Christmas are considered. In addition informing the community of our actions and their responsibilities in reducing crime are a key element in all local activities undertaken.
8. The Community Alcohol Partnership is now established in Burnley. The initiative is a joint enterprise between community safety agencies and partners to tackle the effects of alcohol on our communities. The work will encompass all the work carried out with licensed premises, schools and the community and will also carry out a number of multi-agency events in identified areas where vulnerability of young people through risk taking behavior has been identified.
9. 12 new alleygate schemes have been completed in the Borough, providing extra security for nearly 400 properties. A further 8 schemes are planned for quarter 4 2017/18, this will provide extra security for an additional 187 properties in Burnley and Padiham.
10. A Multi-agency working group is targeting commercial properties that are involved in illegal activity, for example selling illicit tobacco and alcohol, persistent offenders of environmental infractions, risk of fire due to illegal connection to electricity.
11. A Serious Organised Crime Panel is now in place representing the Pennine Community Safety Partnership footprint. The panel will consider organised crime activity and the subsequent threats across District boundaries and how as a multi-agency partnership appropriate responses can be delivered.
12. The Multi Agency Tasking and Coordinating Group meeting has supported the roll out of 12 Christmas safety messages running up to the festive period in 2016, these videos and key messages concentrated on the most common type of crimes perpetrated at the time of year, including theft from vehicles, burglary etc. The messages will be repeated in 2017.
13. In partnership with schools in Burnley a number of sessions have been delivered to year 10 and 11 students, the sessions covered awareness and advice relating to domestic abuse and the exploitation of young people.
14. Partnership members have come together to develop a Youth Panel, the panel responds to reports of anti-social behavior involving young people in geographical areas of Burnley identified through the analytical data supplied to the partnership group. Recent work in Gawthorpe has resulted in a 9.1% reduction in ASB in comparison to the same period in 2016/17.

15. Burnley has been recognised for its work to tackle domestic abuse and has been awarded White Ribbon status, highlighting the Council and its partners commitment not to tolerate or condone any form of domestic abuse.

16. Strategically there has been a shift in how partners are responding to crime and anti-social behaviour, to identify when these issues can be tackled at an earlier stage focusing on the vulnerability and complex needs associated with individuals who regularly place demands on services, including but not restricted to being a perpetrator and also victim of crime.

17. Performance will be reviewed at the Scrutiny Group meeting.

FINANCIAL IMPLICATIONS AND BUDGET PROVISION

18. Community Safety delivery has remained pro-active over recent years with strong partnership arrangements in place, but pressures through continued austerity is providing ever increasing challenges to those agencies involved in this agenda.

POLICY IMPLICATIONS

OBJECTIVES AND ACTIVITIES (CONTINUED)

Sport and Play Development

The Get in2 team is responsible for a growing number of community based projects, aimed at improving opportunities for targeted groups to take part in sport and physical activity. Examples of current programmes include the successful Get in2 Rounders project, which has seen adult participation in the game grow from just a handful of women to well over 400 women playing every week; Couch to 5k with Burnley Athletic Club; the Girls Up and Active project, working in partnership with Calico; and Active Streets, a Big Lottery funded scheme developing training and employability skills, plus diversionary activities, alongside sport.

The Get in2 team works closely with the School Sports Partnership to deliver high quality sports coaching in all Burnley primary schools; whilst during school holidays the team provide the hugely popular Get in2 Holiday Camps, which are now available at Prairie Sports Village, as well as St Peter's Centre.

The team also runs the boating lake in Thompson Park, providing rowing boats, kayaks and pedalos during the summer months, plus an expanding programme of park based outdoor activity sessions that are popular with schools, Cubs and Brownies and private groups.

Leisure Facilities

The Leisure Facility Operational team operate an ever growing number of diverse leisure, event and sporting facilities; at St Peter's Leisure Centre, Padiham Leisure Centre and the Prairie Sports Village. More recently we started to operate the three golf courses and club shop at Towneley Golf Course in April 2017.

We have successfully grown our core fitness business despite increasing competition from the budget gym sector and also increased income and usage from our comprehensive swimming and coaching programme.

Since the Prairie Sports Village was opened, we have had a successful first year developing new areas of business with the golf driving range and golf coaching. The Bistro and wider hospitality has grown rapidly to become an important part of the business with more potential to grow. We have a growing reputation as a top class venue for business networking events and seminars.

We have been consistent in our quality of delivery, winning seven National Fitness Awards and also finalists in the 2017 Lancashire Business Awards. To complement our facilities we have a developing events programme with the Burnley 10k race and Aquathlon now a yearly event with plans to develop this further.

We have exciting plans to develop the golf courses with some innovative programming including Foot Golf that will launch for the first time in Burnley in June 2017.

We are proud of our ongoing staff development programme, regularly holding team meetings tied in with team building activities including everyone in developing the business. Our sickness and absenteeism is at an all-time low, complemented by high staff morale. We have been commended on our forward thinking marketing campaigns and activity including our social media growth and development and we continue to develop this area of the business to its full potential. The team have also been successful in developing partnerships both locally and nationally with, UK Active, Amateur Swimming Association, Simply Classic, Active Network, Alliance Leisure, Zags swimming, Lloyd BMW/MINI.

Public benefit

The trustees are confident that the charity offers services of real and practical use to the local population and therefore complies with the responsibility placed on all charities under the Charities Act 2011 to demonstrate a public benefit.

ACHIEVEMENTS AND PERFORMANCE

Cultural Services

There have been some wonderful achievements in the last year. As always it is important to recognise that none of this would have been possible without the time and dedication from staff. The Staff at the Mechanics work as a team and have an un-floundering focus on quality customer experience be that our audience, our hirers, or visiting shows. As a result, the team have now received over 120 *5 reviews on Facebook with feedback commending the staff, the programme as well as the environment, it has been a busy year with many sell out shows, successful conferences and awards celebrations promoted and delivered. The quality deliver is consistent but not at all taken for granted.

Arts Development

The Creative alliance network has been reinvigorated. A successful network meeting was well attending in February 2017 supported by arts council and even some successful G4A's have been achieved by individual artists off the back of the surgeries. The Creative Alliance now has a steering group who meet regularly are supporting each other's ideas and planning some collective work.

The Thompson Park project "Our Park, Our Town Our Time" has been successfully delivered culminating in a fashion show that took place in the park last summer. The project supporting 13 students to gain arts awards (4 Bronze, 6, Silver and 3 Gold).

Mechanics at Home project has been signed off and evaluated both independently and nationally. Both evaluations recognised that time, compassion and development of trust are key elements to successful engagement of hard to reach communities. They also recognised that the project had some really positive outcomes in terms of community participants increasing in confidence and subsequent ambition. The Craft group and the cinema group established through this project have gained additional funding and carry on as a legacy of this project.

The First Mechanics summer school was delivered in the basement with really positive feedback from participants.

Mechanics

The Mechanics were awarded Cultural venue of the year 2016 by Marketing Lancashire in November. The team were applauded for their passion and professional presentation, outlining all the positive developments that have been achieved since we became a trust.

Heritage lottery Resilience grant funding was achieved and has enabled a period of research, planning and review, of the Mechanics building, its physical condition, its historic significance and potential development opportunities. Work has increased in terms of raising awareness about the 160 history of the building; we ran our first heritage open day tours in September. This work continues into the next year to inform the next funding application.

The Mechanics Bistro clientele are consistently returning and consequently we are building relationships with our customers. We are starting to see more stability in terms of bookings too. It was deemed as too soon to stretch Classic resources in opening on a Saturday during this year, but is programmed for the next financial year.

With support for Sports Development External Grant advice we were successful in an Awards For All application and a volunteering programme for the Mechanics has been established.

The MAP's project has helped to establish a front room programme, supported by a group of community promoters. Although starting from a small base, audiences for this programme have slowly started to grow and we are seeing repeat attendances.

The Basement has new regular hirers, which include baby ballet on a Sunday and a dance class on a Monday night. We don't want to develop this too much as the plans for the Basement are still not set however they are a useful income stream, and bring different people into the building in the meantime.

Up and Active

A year of amazing achievements which has seen our committed team provide countless opportunities for individuals to become more active and lose weight. The membership has grown from strength to strength and recently boasted it's 10,000 registrations; a major achievement in one year.

The work of Up & Active has cut across the whole life course of communities, families and workplaces, resulting in new projects and programmes. The teams' knowledge and experience in Public Health has supported our healthy settings approach, which has seen the service work in a whole range of settings, including, primary schools and colleges, workplaces, community venues and medical centres.

We have also continued to develop working in leisure facilities; this has provided the opportunity to embed our work within the leisure trust and to also add to our charitable status. Working alongside leisure centre staff has seen Up & Active self-referrals continue to use leisure facilities either by 'pay as you go' or convert to become members, to maintain positive changes to their health and wellbeing.

The Healthy Schools programme is an obesity prevention programme that makes specific links to key stage 2 national curriculum subjects. Lesson plans have been developed to compliment taught subjects such as PE, science & PSHE. The programme has proven popular and is showing some very good results, with excellent feedback from all 17 schools and parents/children.

The educational component of the service has provided effective learning opportunities on healthy eating and nutrition. Working with a range of ages from primary to adult, we have delivered behaviour change programmes which resulted in weight loss and improved quality of life.

We can evidence that our programmes work and they provide significant impact through evaluation and data collection. People have been empowered to live their lives to the fullest possible potential by better self-management of conditions to enable continued health gain through making behaviour changes to their lives.

**REPORT OF THE TRUSTEES
FOR THE YEAR ENDED 31ST MARCH 2017**

FINANCIAL REVIEW

The attached statement of financial activities shows how our funds were raised and applied during the year.

This statement separates funds, which the charity itself controls – unrestricted funds, from funds which have to be spent in a manner determined by the donor – restricted funds. In this year restricted funds have been received from various grant making bodies.

This was the third year of operation for the charity, therefore it is now possible to compare the income and expenditure against historic information.

Looking to the future we will continue to maintain a tight control over costs, monitor income closely, and strive to identify future funding streams. We aim to ensure that we are well placed to react to any further negative or indeed positive impact of the economy.

Investment policy

The Trustees regularly monitor the available cash reserves of the charity and seek to maximise the interest earned on such funds.

Reserves policy

The charity has insufficient reserves to ensure that it can deal with major unexpected adverse developments without direct support from Burnley Borough Council. The trustees maintain a regular dialogue with council to ensure that, should major unexpected adverse developments arise, any difficulties that require attention are addressed in a mutually agreeable manner.

The trustees are confident that the charity has established diversity of operations, sufficient versatility and control of expenditures of such nature that it is able to adapt to changing circumstances that will arise from time to time under normal business circumstances.

The trustees have considered the current adverse economic climate when reviewing their reserves policy and are confident, in light of the changes planned that the charity is sufficiently robust and able to continue operating normally whilst it seeks to achieve these targets.

At the year end the charity had unrestricted reserves of £133,199 and restricted reserves of £138,516. In addition to these reserves the pension scheme was in deficit by £2,102,000.

1. ACCOUNTING POLICIES

Company information

Burnley Leisure is a charitable company limited by guarantee, incorporated in England and Wales. The company number and registered office can be found in the Trustees report.

Basis of preparing the financial statements

The financial statements have been prepared in accordance with applicable accounting standards.

The financial statements have been prepared on a going concern basis which assumes that the company will be able to meet its liabilities as they fall due. The related party, Burnley Borough Council, has confirmed that it will provide support for at least 12 months following the approval of these financial statements.

Accounting convention

The financial statements have been prepared under the historical cost convention, and in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1st January 2015) – (Charities SORP (FRS102)), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102), the Companies Act 2006 and the Charities Act 2011.

Burnley Leisure meets the definition of a public benefit entity under FRS 102. Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy note.

Reconciliation with previous Generally Accepted Accounting Practice

In preparing the financial statements, the trustees have considered whether in applying the accounting policies required by FRS 102 and the Charities SORP FRS 102 the restatement of comparative items was required.

No items have been noted which require restatement in the comparative period.

Incoming resources

All incoming resources are included on the Statement of Financial Activities when the charity is legally entitled to the income and the amount can be quantified with reasonable accuracy. Income is the amount derived from ordinary activities, and stated after trade discounts, other sales taxes and net of VAT.

Grants receivable are accounted for when due. Income is deferred when it is received in advance of the period to which it relates.

Investment income is recognised on a receivable basis.

Resources expended

Expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all cost related to the category. Where costs cannot be directly attributed to particular headings they have been allocated to activities on a basis consistent with the use of resources.

Charitable expenditure comprises those costs incurred by the charity in the delivery of its activities and services for its beneficiaries. It includes both costs that can be allocated directly to such activities and those costs of an indirect nature necessary to support them.

Governance costs include those costs associated with meeting the constitutional and statutory requirements of the charity and include audit fees and costs linked to the strategic management and administration of the charity.

All support costs are allocated between the activity expenditure categories on a basis designed to reflect the use of the resource. Support costs are apportioned on an appropriate basis e.g. time spent, floor areas, or estimated usage.

1. ACCOUNTING POLICIES (CONTINUED)

Tangible fixed assets and depreciation

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Fixtures and Fittings - 20% on cost

Fixed assets

The financial statements do not include the cost of land, buildings and equipment used at nominal rent by Burnley Leisure Trust, whose title rests with Burnley Borough Council. It is not practicable possible to attribute a value to this benefit.

Taxation

The charity is exempt from corporation tax on its charitable activities.

Fund accounting

Unrestricted funds can be used in accordance with the charitable objectives at the discretion of the trustees.

Restricted funds can only be used for particular restricted purposes within the objects of the charity. Restrictions arise when specified by the donor or when funds are raised for particular restricted purposes.

Further explanation of the nature and purpose of each fund is included in the notes to the financial statements

Pension costs and other post-retirement benefits

The charity participates in a defined benefit scheme. Although the scheme is a multi-employer scheme it is possible to allocate a share of the assets and liabilities to the charity and hence contributions are accounted for as a defined benefit scheme in accordance with FRS 102.

Stock

Stock is valued at the lower of cost and net realisable value, after making due allowances for slow and obsolete items.

Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

Debtors

Short term debtors are measured at transaction price, less any impairment.

Creditors

Short term creditors are measured at transaction price.

Significant judgements and estimates

Preparation of the financial statements requires management to make significant judgements and estimates. The major item in the financial statements where these judgements and estimates must be made is in relation to the pension scheme. Management consult with experts to provide appropriate assumptions on which to calculate projected funding position for the scheme.

In forming this opinion, the trustees have paid particular regard to:

- a) The nature of and future prospects for the economic climate in which the charity operates;
- b) The adequacy of the liquidity in the business demonstrated through the current 12 month forecast;
- c) The continued support of the council;
- d) The remaining term to March 2029 of the management agreement with Burnley Borough Council;
- e) The competencies of the executive staff employed by the charity;
- f) The actual performance to date for the financial year ending 31st March 2018.
