47. Single Use Plastics

It was moved by Councillor Sarah Hall and seconded by Cllr Andy Fewings that;

This Council notes that

A) Lancashire County Council has already passed a motion to ban the use of -single use-plastics (“SUP”) within its estate, setting the standard for the County [1];

B) whilst SUPs items are cheap, convenient, and readily available, the growing production and disposal of them has had major impacts on the environment and biodiversity [2];

C) oceans and Britain’s iconic watercourses [3] are becoming increasingly polluted, as highlighted in recent TV programmes like the BBC programme Blue Planet 2, and marine life in particular is suffering because 8 million metric tons of plastic waste ends up in the world’s oceans each year [4];

D) the disposal of plastic waste produces chemicals known to be carcinogenic [5], and micro plastics are present in the food chain as they are ingested by animals [6]; and

E) only 30% of plastic waste is currently recycled, with China recently banning the import of landfill and recycling, leaving countries having to finally take responsibility for their waste [7].

This Council believes that:

i) reducing the consumption of unnecessary (i.e. excluding medical items) SUPs (“USUPs”) is vital to protecting the environment we live in

ii) having passed a Climate Emergency Motion to tackle carbon emissions, it follows that the Council should become as environmentally sound as possible

iii) it is its responsibility to model and encourage more behaviour within the Borough to protect the environment

This Council resolves to:

1) conduct an in-depth audit of all items used within the council estate for USUPs and publish the results to the public by 30 April 2020

2) thereafter, complete annual audits of the councils’ USUP use, and publish these results to the public annually, no later than the 30 April in each year

3) end the procurement and use of USUPs, including (but not limited to) cups, cutlery, water bottles, stirrers and straws, within all Council run operations, premises and events by March 31, 2020

4) include, as a condition of any new licence to occupy, lease or other tenancy or other disposal of council premises, a provision that no USUPs will be generated or permitted at such premises

- 5) include, as a condition of any new council contract, a provision that no USUPs will be generated or permitted in the Borough
 - 6) assess the councils' supply chain, and switch to businesses that are as USUP-free as possible
 - 7) encourage local businesses (including Burnley Market and Burnley FC) to phase out and stop their use of USUPs
 - 8) carry out a feasibility study to identify (i) a space owned by this Council within the Borough to house a zero-waste [8] community run co-operative shop with rent and rate incentives and (ii) for siting of refill stations, to discourage the purchase of USUP bottles
 - 9) facilitate education programmes to the public to discourage the use of USUP

In accordance with Council Procedure Rule 12- Motions on Expenditure- as this item would have the effect of materially increasing the expenditure or reduce the revenue of the Council or involve capital expenditure, the motion was REFERRED to the Executive without discussion to consider and report back to a future meeting of the Full Council.

48. Unitary Authority

It was moved by Councillor Charlie Briggs that;

“Council notes changes to the criteria for the creation of Unitary Authorities used by the Department of Communities and Local Government, which means proposals for new ones no longer need the support of all the Councils affected.

Council also notes the strong indications that a unilateral proposal for an authority is likely to be submitted covering the Pennine area of Lancashire and that the Member of Parliament for Burnley supports such a body.

This Council believes abolishing existing local councils and imposing a Unitary Authority centred on Blackburn will lead to the loss of any true local control on local matters by local residents and their representatives.

Therefore, Council resolves to oppose proposals for such a Pennine Lancashire Unitary Authority”.

In accordance with Council Procedure Rule 14.7(a) Councillor Briggs proposed an ALTERED motion as follows, and this was consented to by the meeting and then seconded by Councillor Margaret Lishman;

“Council notes changes to the criteria for the creation of Unitary Authorities used by the Department of Communities and Local Government, which means proposals for new ones no longer need the support of all the Councils affected.

Council also notes that a unilateral proposal for an authority has been submitted covering the Pennine area of Lancashire.

This Council believes abolishing existing local councils and imposing a Unitary Authority centred on Blackburn will lead to the loss of any true local control on local matters by local residents and their representatives.

Therefore, Council resolves to oppose proposals for such a Pennine Lancashire Unitary Authority.”

An amendment was moved by Cllr Mark Townsend and seconded by Cllr John Harbour that;

“Council notes changes to the criteria for the creation of Unitary Authorities used by the Department of Communities and Local Government, which means proposals for new ones no longer need the support of all the Councils affected. **This Council firmly believes that all Councils impacted by any proposals should have their views heard.**

Council also notes that a unilateral proposal for an authority **has been** submitted covering the Pennine area of Lancashire **by Blackburn with Darwen Council. In response to this there are strong indications from Lancashire County Council that they will come forward with their own alternative proposals covering the whole of Lancashire if Government are minded to positively consider the Pennine proposal.**

This Council believes abolishing existing local councils and imposing a Unitary Authority centred on **Preston or** Blackburn will lead to **a dilution** of local control on local matters by local residents and their representatives.

Therefore, Council resolves to **participate in discussions on unitary authorities but make clear to all parties that it** opposes proposals for **authorities that**

a. **Suggest the creation of a Blackburn Centric** Pennine Lancashire Unitary Authority, **or**
b. **Suggest the transfer of any powers, financial control or service delivery responsibilities from Burnley Council to a Preston centric Lancashire wide authority.**”

In accordance with Council procedure Rule 13(k) a motion was carried to ADJOURN the meeting for 10 minutes.

In accordance with Council Procedure Rule 16.4(a) a recorded vote was taken on the amendment.

On being put to the vote the amendment was declared to be carried and became the substantive motion.

On being put to the vote the substantive motion was declared to be carried and it was RESOLVED accordingly.

49. Passivhaus Version 2

It was moved by Councillor Andy Fewings and seconded by Councillor Sarah Hall that;

This Council notes:

- 1) The Government's most recent figures[1] for Burnley show that more than 15%, or nearly 6000 of Burnley's households are in fuel poverty;
- 2) The loss of income to the local economy as a result of these lower energy efficiency standards, as those 6000 householders' income is spent paying energy bills rather than in local shops and on local services;
- 3) Whilst the Government cancelled the introduction of Zero Carbon Home Standards in 2016, it has recently confirmed that the Council can set their own energy efficiency standards for new buildings beyond those set in Part L of the Building Regulations[2]; and
- 4) The report from the Intergovernmental Panel on Climate Change highlighting that we have less than 11 years to take serious action to reduce emissions to avoid massive damage to the global environment.[3]
- 5) That a working group for Climate Emergency has been set up, but that budgets will be set shortly and so a motion to full council is necessary given that we are in an emergency situation.

This Council believes:

- 1) That we must take urgent action to improve the energy efficiency standards in new buildings in order to i) tackle the issue of fuel poverty in the borough, ii) reduce carbon emissions, iii) save energy and iv) keep money that would go to energy companies circulating in our local economy;
- 2) That improving energy efficiency in new buildings and retrofitting old buildings are just part of a strategy to reduce emissions in our area but they are important steps to take that should be part of a wider strategy; and
- 3) That the internationally recognised 'Passivhaus Standard' offers an alternative to the UK's diminished energy efficiency ambitions for newbuild housing and complies with UK Building Regulations.

This Council resolves:

- 1) To specify Passivhaus Standards for all buildings on Council-owned land or as a condition of sale on any council land.
- 2) To renovate all houses which are acquired under Compulsory Purchase Order by the Council as energy efficient as possible and having regard to the Passivhaus Standards where possible; and
- 3) To produce Supplementary Planning Guidance at the earliest opportunity calling for higher energy efficiency standards compliant with the internationally recognised Passivhaus Zero Carbon Standards.
