

Appendix 1: Prudential and Treasury Indicators

During 2018/19, the Council complied with its legislative and regulatory requirements. The key actual prudential and treasury indicators detailing the impact of capital expenditure activities during the year, with comparators, are as follows:

Actual prudential and treasury indicators £m	2017/18 Actual	2018/19 Original	2018/19 Actual
Capital expenditure General Fund	10.0	10.1	6.4
Capital Financing Requirement: General Fund	30.2	30.7	30.5
Gross borrowing	24.1	25.0	23.1
Investments Under 1 year	12.4	15.8	8.8
Net borrowing	11.7	9.2	14.3

Gross borrowing and the CFR - in order to ensure that borrowing levels are prudent over the medium term and only for a capital purpose, the Council should ensure that its gross external borrowing does not, except in the short term, exceed the total of the capital financing requirement in the preceding year (2018/19) plus the estimates of any additional capital financing requirement for the current (2019/20) and next two financial years. This essentially means that the Council is not borrowing to support revenue expenditure. This indicator allows the Council some flexibility to borrow in advance of its immediate capital needs in 2018/19.

The authorised limit - the authorised limit is the “affordable borrowing limit” required by s3 of the Local Government Act 2003. Once this has been set, the Council does not have the power to borrow above this level. The table below demonstrates that during 2018/19 the Council has maintained gross borrowing within its authorised limit.

The operational boundary – the operational boundary is the expected borrowing position of the Council during the year. Periods where the actual position is either below or over the boundary is acceptable subject to the authorised limit not being breached.

Actual financing costs as a proportion of net revenue stream - this indicator identifies the trend in the cost of capital (borrowing and other long term obligation costs net of investment income) against the net revenue stream.

£m	2018/19
Authorised limit	33.8
Maximum gross borrowing position	23.1
Operational boundary	32.2
Average gross borrowing position	23.6
Financing costs as a proportion of net revenue stream	12.7%
