INTRODUCTION

1. This Strategy provides an overarching framework which sets out the context in which future decisions on resource allocation and budgeting will be taken. The primary purpose of this Strategy is to provide an indication of the future financial position of the Council and in turn inform the annual budget setting process. It quantifies the likely level of resources that are available to deliver the Council's services and achievement of its core strategic objectives as set out in the Strategic Plan.
2. The Council continues to face challenging reductions in funding and will do so for the foreseeable future. Increasingly the ability to achieve strategic objectives is coupled with the need to deliver cash savings and cost reductions. Consequently, it is imperative that resources are allocated following an assessment of strategic priorities and that annual budget decisions are aligned to those priorities.
3. This Strategy includes:
 - Financial context and a high level overview of funding changes likely to affect the strategy;
 - An impact assessment of the Revenue Budget 2017/18 on future years;
 - Gap analysis for 2018/19, 2019/20 and 2020/21 and underlying assumptions;
 - Balancing the medium term;
 - Risks;
 - Reserves Forecast;
 - Monitoring and Review.
4. This Strategy reflects the approach adopted in a number of other strategies and policies adopted by the Council, which should be read in conjunction with this document. These include the Revenue Budget 2017/18, the Statutory Report of the Chief Finance Officer and the Treasury Management Policy. In addition the Reserves Strategy is of fundamental importance and is included as an appendix to this document.
5. The medium-term financial planning process has been in place for a number of years and is now an established part of the budget setting process. It provides a forecast of the cost of continuing to provide existing levels of service and the resources that are likely to be available to the Council over the period. It sets out the potential budget gap to inform the Executive and Full Council and to determine the overall size of the efficiencies and cost reduction programme needed over the medium term.

FINANCIAL CONTEXT

6. The major aspects of the local government settlement for 2017/18 as they affect 2018/19, 2019/20 and 2020/21 are:
- The Government's intention to phase out Revenue Support Grant by 2020
 - The calculation of Core Spending Power but with no maximum decrease and no support for any decrease from Efficiency Support Grant (ESG)
 - Continuation of New Homes Bonus – however the Government has reduced the period that grant is payable from six years to five years in 2017/18 and to four years in 2018/19. This results in an overall loss of grant of £1.599m. It has also introduced a baseline for housing growth, 0.4% of a Council's band D equivalent properties, which will be deducted from the grant calculation each year from 2017/18. This currently equates to 121 properties and a loss of £148k each year; £592k over the new four year period 2017/18 to 2020/21.
 - Confirmation of the Government's intention to allow local government to retain 100% of business rates by 2020, but this will be fiscally neutral.
 - Allowing local authorities to use 100% of capital receipts from asset sales to fund cost-saving reforms (mainly for those authorities with depleted strategic reserves)
 - The level of Council tax increase (excluding any social care increase – see below) beyond which a referendum is required remains at 2%
 - Further social care Council tax precept increases within Councils with responsibility for providing social care of up to 3% (6% total over the three year period), in addition to the 2% general increase
 - Confirmation of a multi-year (2017/18 to 2019/20) budget for Burnley and the 97% of authorities who signed up to demonstrate efficiency savings.

CORE SPENDING POWER

7. In previous years, the government stated that Core Spending Power reductions between financial years was limited to a maximum reduction and additional grant was provided to those authorities to ensure that they did not experience losses greater than this maximum reduction. The calculation of Core Spending Power has changed over the years and is not limited to general government revenue grant and business rates but has also included council tax receipts, New Homes Bonus and other specific grants. This means that the headline percentage reduction quoted by the government also takes into account income from sources other than core general government revenue grant, and is not representative of only direct government funding.
8. The methodology of the Core Spending Power calculation for 2017/18 includes Revenue Support Grant, Business Rates baseline funding, Council Tax and New Homes Bonus. As with 2016/17, no maximum decrease in spending power has been set for 2017/18. Burnley's Core Spending Power will reduce by 4.3% in

2017/18 (4.39% in 2016/17). Given that no maximum decrease has been set there will also be no payment of ESG in 2017/18.

9. A comparison of Burnley Spending Power with other local authorities is shown in Table A. Burnley is still facing Spending Power reductions significantly above the national average.

TABLE A SPENDING POWER REDUCTION			
Year	Burnley (%)	England Average (%)	Ratio
2013/14	8.8	1.7	5.2 times
2014/15	5.6	3.1	1.8 times
2015/16	6.4	1.8	3.6 times
2016/17	4.4	2.8	1.6 times
2017/18	4.3	1.1	3.9 times

10. However, whilst the headline Core Spending Power reduction for Burnley is 4.3% for 2017/18, there is a much greater 24.1% cash reduction in Government Revenue Support Grant funding. The Revenue Support Grant (RSG) element of the Settlement for 2017/18 will be £2.777m (£883k less than in 2016/17) and is now significantly lower than the indicative figure for localised business rates (BRB) of £3.982m. The direction of travel nationally is for local government to be funded from local revenues only in the longer term (as shown in Table B overleaf).

11. Whilst this would be a concern nationally, the reduction will impact Burnley greater as it is more heavily dependent on government funding than other Councils which have greater buoyancy in the council tax base. This can be shown in Table C below:

TABLE C		
% SPENDING POWER FINANCED THROUGH REVENUE SUPPORT GRANT & EFFICIENCY SUPPORT GRANT		
Year	Burnley (%)	England Average (%)
2013/14	41	29
2014/15	38	24
2015/16	30	18
2016/17	25	17
2017/18	20	12

12. The government have now clearly indicated in the 2017/18 settlement that it is intended to phase out Revenue Support Grant by 2020. The intention to allow local government to retain 100% of business rates by 2020 has also been confirmed. This means that there will be a greater demand on Council tax payers and businesses locally over the next three years if this loss of RSG funding is to be mitigated. The Council will continue to work towards the release of further efficiency savings but the change in Government funding will mean an increased reliance on local tax revenues whilst at the same time there will be a reduction in services provided by the Council.

BUSINESS RATES RETENTION

13. Prior to 2013/14, business rates were collected by local government and paid into a national pool and redistributed to local government as part of formula funding. This meant, for councils such as Burnley any variation in business rates collected (i.e., any increase in business rates or any reduction in business rates collected locally) did not affect the Council's financial performance as the Council's contribution from the national pool was fixed as part of the local government settlement.
14. Under the current system Burnley now receives an indicative figure or "baseline" from the Government for its local allocation of business rates and is able to retain a proportion of business rate growth or bear an element of risk in the event of a reduction in collected business rates. Whilst the arrangements are complex, Burnley is able to retain 20% of any increase in business rates above its baseline or 40% up to its baseline. In the event that Burnley achieves a 10% increase in its business rates collection, Burnley Council will receive an additional £493k in funding. Conversely, a safety net threshold has also been introduced to protect the Council from significant business rate reductions. For Burnley, this means that the Council's financial position underwrites losses of up to £299k.

15. Burnley has had some success in growing its business rate base over the last three years and an increase in business rates above the baseline figure has been factored into the 2017/18 revenue budget. Additional income of £161k is included within the 2017/18 budget. However, there is still a great deal of uncertainty over this funding due to the extent of business rate appeals and demands to invest in economic growth. As a consequence, no further increase in business rates has been factored into this financial forecast.
16. As referred to above, the intention to allow local government to retain 100% of business rates by 2020 has also been confirmed. The indicative figures set by the Government for individual Councils and currently in use are based upon collection statistics which prevailed more than 6 years ago.
17. Given that business rates will play a more significant role in the Council's future funding arrangements it is important that the distribution of the total rates collected nationally is considered and that attention is paid to the ability of individual Councils to generate rates income and what redistribution mechanisms, if any, are put in place.

NEW HOMES BONUS

18. The national funding formula has been incentivised to encourage councils to build additional homes. As such councils are rewarded as part of the New Homes Bonus (NHB) to build homes or bring back into use existing stock. In addition, an enhanced rate is paid for social housing. The provisional settlement has changed the formula for calculations of the NHB calculations. NHB is currently paid for 6 years but will reduce to 5 years in 2017/18 and then to 4 years from 2018/19 onwards. This will be applied retrospectively to existing NHB allocations. As a result the year 1 NHB funding payment of £70k and the year 2 payment of £14k have ceased in 2017/18 and there will be subsequent reductions of £520k, £503k and £400k in 2018/19 to 2020/21.
19. As mentioned earlier, the Government has introduced a baseline for housing growth of 0.4% from 2017/18, up to which, the Council will receive no new allocation. This means that the first 121 properties built or brought into use in 2017/18 will not be subject to a grant allocation. As a result the Council will not get £148k of new NHB in 2017/18 which it would have previously been entitled to. Over the new proposed 4 year timescale this equates to a loss of £592k. The Government will review the baseline level for subsequent budget settlements. Consequently, the known reductions referred to above have been included within the MTFS but any increase in NHB has not been factored into the financial forecast for future years.

COUNCIL TAX INCREASES

20. For 2017/18, as in 2016/17, guidance issued by central Government requires a referendum where proposed Council tax increases are 2% or more than 2%.
21. The Council recognises the impact that council tax has on local residents and will always take their ability to pay into consideration when setting council tax levels.

The Council should adopt an approach where local sources of funding are maximised as far as is reasonably practicable to do so. Consequently, a 1.9% council tax increase has been factored into the medium term financial forecast for each year for financial planning purposes only. Clearly, any decisions on setting future council tax levels will be considered each year at Budget Council.

22. The financial impact each year of not increasing council tax is an additional pressure of around £119k.

AN IMPACT ASSESSMENT OF THE REVENUE BUDGET 2017/18 ON FUTURE YEARS

23. The Medium-Term Financial Strategy for 2018/19, 2019/20 and 2020/21 is dependent on the delivery of a number of assumptions within the annual budget for 2017/18. This strategy assumes that:
- the Council will approve an annual budget that delivers savings and increased funding totalling £1.85m and uses reserves as a one-off contribution of £240k to support the delivery of the 2017/18 Revenue Budget;
 - the Council receives the estimated business rates assumed in the calculation of the baseline funding level and any additional business rates included as funding within the approved net revenue budget
 - The assumed costs of delivering the Council's services both directly and indirectly is in line with planning assumptions.
24. These assumptions are a realistic assessment of the underlying financial position as shown in the Medium Term Financial Strategy. The annual budget will be approved in February 2017.

POTENTIAL GAP FOR 2018/19, 2019/20 and 2020/21

25. The overall funding gap for 2018/21, using planning assumptions, is summarised below:

	Reduction from 2017/18 Provisional Settlement	
	(£m)	%
Anticipated funding reduction	1.0	
Waste and Recycling Cost Sharing	0.8	
Pay and Prices/other	0.0	
Gap 2017/18 funded from reserves	0.2	
Potential Gap 2018/19	2.0	13.7
Anticipated funding reduction	0.7	
Pay and Prices/other	0.3	
Potential Gap 2019/20	1.0	6.7
Anticipated funding reduction	0.7	
Pay and Prices/other	0.3	
Potential Gap 2020/21	1.0	7.1
Cumulative Potential Gap 2018/21	4.0	27.5

26. The gap remains significant for 2018/19 in part due to the use of £240k from strategic earmarked reserves in 2017/18 as one-off funding and the £801k loss of funding through the waste & recycling cost share agreement.
27. Underlying assumptions included within the forecast are:
- Council tax will increase by 1.9% each year;
 - No increase has been factored in for non-inflationary changes in council tax base; business rates or additional new homes bonus
 - Pay award assumed at 1% per annum, fees and charges income at 2% per annum; and
 - No assumptions built into forecast regarding changes to Council Tax Support claimant numbers.

BALANCING OVER THE MEDIUM TERM

28. The Council operates in a generally challenging environment. Given the planned significant reductions in the Council's funding from Government over the medium term there will need to be a continuing fundamental review of the core purpose of the Council. This will demand strategic and corporate leadership and it is essential that there is seen to be strategic ownership of such a review given the scope of changes which will result from this.
29. The overall size of the challenge that the Council faces is significant and the formulation of a balanced budget over the longer term requires the delivery of savings through strategic prioritisation, service transformation and continuous improvement. The Council continues to make and face key decisions affecting the way it delivers core Council services.
30. The Council will consider fully its strategic intent as encapsulated in the Strategic Plan and will seek not only to reduce costs and deliver the necessary savings but seize opportunities to use those cost saving programmes as leverage for wider strategic benefits.
31. The structure of the Council should be adapted to reflect the challenging operating environment. Furthermore, these structural changes will require that there is also sufficient flexibility to meet all challenges which may arise. Significant service reconfiguration will therefore continue to take place and further progress will be made to update the way the Council is structured following the 2016 senior management review and the continuation of the Liberata contract, which commenced in January 2016. A review of internal business processes will continue so as to promote automation and to reduce back office workloads. This will change the way we work in line with the organisational development strategy and through the promotion of self-service wherever possible.
32. The Council has a strong track record of delivering efficiency savings over recent years and this work will need to continue for the foreseeable future. The outcome will be a Council which is more streamlined and focussed on key strategic objectives, delivered through transformed services working in partnership.
33. Given the challenges ahead, the Council will continue to use the commercial strategy which sets a framework for developing a commercial approach by everyone within and representing the Council. By doing this we will seek to maximise income from our activities and services whilst still having regard to the ability to pay. We will also minimise the costs involved in service provision through this approach by promoting better procurement and continuing to gain value from contracts with partner organisations and so aim to reduce the future funding gap.

RISKS

34. The significant risk areas are:

RISK		MITIGATION	ASSESSMENT
(i)	Ability to maintain a balanced budget over the medium-term.	Consideration of core purpose of the Council. Development of a multi-year planned and systematic programme of efficiency and cost reduction measures; Ensure effective programme management to ensure timely delivery. Maintain an effective reserves strategy.	HIGH
(ii)	Funding uncertainty with regard to the proposed changes in NHB funding and the changes in Business Rates funding for local government.	Horizon scanning national developments and proactive contribution to help shape the funding framework. Lobby for additional resources with government and also through the LGA. Seek to maximise local funding sources.	HIGH
(iii)	Business rate volatility including appeals	No projected increase factored into MTFS, reserves available as buffer in short term. Active consideration of all appeals to minimise impact on revenues.	HIGH
(iv)	Partnership performance – achievement of planned savings and delivery of these savings on time	Develop enhanced contract management skills and procedures. Project management discipline. Consolidation of good working relationships with contract partners.	MEDIUM
(v)	Reserves - potential impact on reserves position, if they are required to support the delivery of a balanced budget over the medium-term.	Include policy on use of reserves within Medium-Term Financial Strategy (attached).	MEDIUM
(vi)	Potential claw-back or loss of any external or grant funding.	Compliance to external and grant funding conditions, careful programme monitoring of capital projects.	MEDIUM

RISK		MITIGATION	ASSESSMENT
(vii)	Prices - the Strategy only allows for budget increases in specific areas, e.g. business rates and contractual requirements. The forecast for CPI and RPI is for bigger increases.	Review at each update of the Strategy	LOW
(viii)	Pay – 1% in Strategy but pressure for higher settlements may develop in the future	Review at each update of the Strategy	LOW
(ix)	Income and fees and charges.	Ensure that the Council's commercial strategy is used to maximise income opportunities. An allowance has been built into the Medium-Term Financial Strategy for an increase in line with the Council's commercial strategy. This will be reviewed as part of the annual fees and charges review.	LOW
(x)	Treasury Management.	Approved Treasury Management Policy, with regular monitoring with support from external advisors.	LOW

RESERVES & BALANCES

35. The overall forecast position on reserves is shown in the table below. This includes all strategic earmarked and general reserves. The Reserves Strategy can be found in detail at Appendix 1.

	Transformation	Growth	Strategic Total	General Reserve
	£'000	£'000	£'000	£'000
Opening balance 01/04/2016	2,714	2,181	4,895	1,379
Net movement to end 2016	(7)	(48)	(55)	-
General Budget Support 2016/17	(250)	-	(250)	-
Balance after approvals	2,457	2,133 ✓	4,590	1,379
General Budget Support 2017/18	(240)	-	(240)	-
Estimated Future Use in MTFs	-	(1,965)	(1,965)	-
Balance Remaining	2,217	168 ✓	2,385	1,379

36. The reserves position does not include any requirement to support the budget gap on an on-going basis. There is however provision for a one off contribution of £240k in 2017/18 due to be approved at Budget Council in February 2017.
37. General reserves are held to provide short term emergency funds for exceptional circumstances and to cover risks that could impact the Council as a going concern. The current level of the Council's General Reserve is set at £1.379m, equivalent to 7% of the net revenue budget and an assessment of volatility within the business rates retention. The General Reserve has been reviewed as part of the re-assessment of the MTFS and it is proposed that it should remain at £1.379m.
38. Earmarked reserves are held for specific purposes either as a strategic reserve to give flexibility in the use of corporate resources or as specific ring fenced reserves for operational needs.
39. Any resources that are released by savings on the approved budget will be transferred into an earmarked reserve, although it is expected that given the increased pressures on the annual revenue budget the ability for the Council to build up reserves will become increasingly difficult in future years. The purposes, for which reserves are held, are included within Appendix 1.
40. It is Council policy that earmarked reserves should not be used to pay for continuing expenditure. Earmarked reserves should be used for the specific purpose for which they were set aside. This includes funding one-off or non-recurring items, invest to save initiatives or to provide short term and time limited support to manage the transition from the withdrawal of funding.
41. The Council's reserves are not set at excessive levels and furthermore, it is prudent to protect and enhance earmarked reserves where there are opportunities to do so to provide one-off protection particularly given the uncertainty of the current financial climate and longer term risks associated with the local government funding arrangements. It can be seen in the table above however that it is anticipated that a substantial part of the Council's strategic earmarked reserves will be used by the end of the MTFS period. The adequacy of strategic earmarked reserves will continue to be monitored to meet future demands.

MONITORING & REVIEW

42. The Council operates delegated financial management. Following approval of the annual budget, budgets are delegated to service units where each Head of Service has delegated responsibility to ensure that they monitor and maintain budgetary control, achieve efficiency plans built into the budget and follow financial procedure rules. Each Head of Service is charged with ensuring their lead Member is fully briefed on financial issues. Corrective action plans are required in the event of any underperformance against budget to ensure the budget remains on track by the end of the financial year. Conversely, any service underspend at the end of the financial year will be used to contribute towards corporate priorities - general carry forward of underspends by services is not permitted. Any requests for specific service commitments to be rolled into the following financial year will be considered on an exception basis.
43. The Council is committed to achieving value for money in all aspects of its operations. To achieve this, reviews are regularly undertaken to determine whether cost improvements can be made, and to ensure that resources are prioritised and align to strategic intent.
44. Any new proposals for on-going revenue growth must be backed up by a clear business case that demonstrates delivery of efficiencies aligned to strategic objectives. Criteria will be used to determine the relative priority of all capital projects.
45. The Council will operate a commercial strategy which will be reviewed periodically.
46. The Council will carry out three cycles of budget monitoring during each financial year together with a combined revenue and capital final outturn report, each of which will be reported formally to the Executive. These will also be reported to the Scrutiny Committee. Approval of any adjustments to capital or revenue budget control totals will then be sought from Full Council.
48. The financial modelling projections contained within this Medium-Term Financial Strategy are a dynamic model, which will be updated, revised and reported following receipt of business intelligence, changes to underlying assumptions and as the position becomes clearer.

APPENDICES

APPENDIX 1

RESERVES STRATEGY

1. BACKGROUND

- 1.1 The Council continues to face significant financial challenges. The era of austerity is set to continue for the foreseeable future which will undoubtedly result in further substantial reductions in funding from the government. The Council however remains committed to its ambitions of delivering its place shaping strategic priorities. This means that the Council is not only prioritising resources for key service objectives but is also continuing to adjust to a reduced cost base to ensure financial sustainability over the medium term.
- 1.2 Within this context, reserves play a vital role in offering transitional support to act as a buffer and to ensure smooth service transition as the Council adapts to organisational changes and new ways of working; and to offer time limited opportunity for investment to aid strategic delivery.
- 1.3 It is imperative, therefore, that the Council has in place a strong and robust reserves strategy, that adequately reflects the future needs of the organisation, set at a level that mitigates against future risks and certainties and provides opportunity for investment within the confines of overall affordability and availability of resource.
- 1.4 Given the current context of operations there are no planned arrangements for replenishing reserves drawn down, although a minimum level of reserve (general reserve) has been assessed for the Council to remain a going concern. As part of the finalisation of the year end position, opportunities will be taken, if possible, to replenish reserves in the light of risk appraisal.
- 1.5 This reserves strategy sets out the protocol for use of reserves and re-assesses the adequacy of reserves.

2. LEGISLATIVE/REGULATORY FRAMEWORK

- 2.1 The requirement for financial reserves is acknowledged in statute. Sections 32 & 43 of the Local Government Finance Act 1992 require billing and precepting authorities to have regard to the level of reserves needed for meeting estimated future expenditure, when calculating the budget requirement.
- 2.2 There are no statutory minimum levels imposed and it is not considered appropriate or practical for the Chartered Institute of Public Finance and Accountancy (CIPFA), or other external agencies, to give prescriptive guidance on the minimum or maximum level of reserves required, either as an absolute amount or a percentage of the budget.

- 2.3 The adequacy of the level of reserves is therefore a matter of local judgement bearing in mind the level of risk the council faces together with the requirement to provide any non-recurring or one off support for strategic priorities.
- 2.4 The management of reserves within the current difficult financial environment is not universally agreed. There is a conflict between the expectation of Government that Councils should utilise their reserves over the medium term and the views of professional and regulatory bodies who suggest that reserves should be increasing over the same period.

3. **ROLE OF THE CHIEF FINANCIAL OFFICER**

- 3.1 Within the existing statutory and regulatory framework, it is the responsibility of the Chief Financial Officer (in Burnley's case this is the Head of Finance) to advise the local authority about the level of reserves that they should hold and to ensure that there are clear protocols for their establishment and use.
- 3.2 This requirement is also reinforced by Section 114 of the Local Government Finance Act 1988, which requires the Chief Financial Officer to report to all the authority's councillors, if there is or is likely to be unlawful expenditure or an unbalanced budget. This would include situations where reserves have become seriously depleted and it is forecast that the authority will not have the resources to meet its expenditure in a particular financial year.

4. **PURPOSE OF RESERVES & BALANCES**

- 4.1 Reserves can be classed as general reserves or earmarked reserves and represent funds that are not part of the normal recurring budget of the Council but are distinct "pots" of finite funds.
- 4.2 General reserves are set aside to provide a short term cushion for the impact of uneven cash flow, to provide an emergency fund for exceptional unmitigated circumstances and to ensure that the Council remains a going concern. The current level of the Council's general reserves is set at £1.379m. This equates to 7% of the net revenue budget and an assessment of volatility within the business rates retention scheme. This figure is judged as a prudent level of balance to be set aside to ensure the Council remains financially liquid as a going concern. This fund is held as a fund of "last resort" when all other reserves or budgets have been completely depleted for unknown "Treasurer's risk".
- 4.3 Earmarked reserves are held to mitigate against potential specific risks that the Council faces; cushion against uncertainty; provide for anticipated liabilities and provide short term investment for strategic priorities or support the operational delivery of specific services. These reserves are held for either strategic purposes to give flexibility in the use of corporate resources or are held as specific ring-fenced reserves for operational needs.

4.4 Given the increased pressures on the annual revenue budget the ability for the Council to build up reserves will become increasingly difficult in future years. Clear protocols therefore should be in place for the use of each earmarked reserve that set out:

- The reason for/purpose of the reserve;
- How and when the reserve can be used;
- An assessment of the adequacy of the reserve in light of risk factors;
- Procedures for the reserve's management and control; and
- A process and timescale for review of the reserve to ensure continuing relevance and adequacy.

5. **RISK FACTORS**

5.1 The table below identifies the key risks that are mitigated and managed through this reserves strategy:

Risk	Reserve
Short term liquidity and cash flow.	General (Treasurer's Risk)
Unforeseen emergencies.	General
Strategic service transformation and ability to ensure services remain fit for purpose and deliver value for money.	Transformation
Achievement of high priority strategic objectives that require pump priming or inward investment.	Growth
Financial risks inherent in major developments and projects that are aligned to strategic priorities.	Growth.
Provide interim support for emerging risks that were unknown at budget setting and are an unavoidable commitment through regulatory or legislative reform that are outside the direct control of the council	Transformation
Fluctuations, loss and uncertainty in funding or income levels coupled with the Council's ability to respond in a timely way, thereby providing a buffer to enable the Council to downsize.	Transformation
Variations in business rate yield due to the impact of appeals and other factors which can reduce funding availability	Business Rates Volatility
Ensure resources available to provide for future unavoidable and non-recurrent specific needs.	Transport & Plant Local Plan (Development Framework) Town Centre Masterplan Burnley Bondholders
Transparency in accounting arrangements for self-financing initiatives.	Taxi Licensing Selective Licensing
Respond to changes in demand for services.	Housing Benefit Administration Subsidy
Potential liability as guarantor from lower-than-anticipated take-up of service.	Rail Services

6. **REPORTING FRAMEWORK**

6.1 The level and utilisation of reserves will be determined formally by the Council, informed by the advice and judgement of the Head of Finance. The protocols covering all reserves are set out in Sections 7 & 8 for strategic and operational reserves respectively.

6.2 The Medium-Term Financial Strategy and the Council's annual Revenue Budget report, include a statement showing movements in reserves. In

addition, the Medium-Term Financial Strategy includes a forward forecast of future balances for the relevant period.

7. STRATEGIC RESERVES PROTOCOL

Reserve	Level of reserve	Purpose	How & When Used	Control Procedures	Timescale for review
Transformation	Recommended to have available balance of £1.5m uncommitted at 31/3/18	To support specific projects aimed at transforming services either to reduce the cost base; deliver value for money or ensure services remain fit for purpose.	Used to mitigate the impact of any one off expenditure that arises from organisational and transformational change and to assist with organisational downsizing.	Managed by the Head of Finance (Chief Financial Officer).	The overall level will be reviewed twice-yearly as part of the final accounts and budget processes and any movements monitored as part of the budget monitoring process.
