

Cllr Mark Townsend has submitted the following question.

“At the next scheduled meeting of the cross party Scrutiny Committee on June 10<sup>th</sup> can the Chair of Scrutiny include a review of the impact on the Borough of the Covid-19 pandemic, the Council response to date and future plans to support businesses and residents?

On the committee identifying and agreeing any specific areas requiring more detailed review can the Chair ensure these are included in the committee work plan and a schedule agreed with Executive Members and officers to appropriately support the work of the committee on this urgent matter?”
