

## **Report of the Chair of Development Control Committee**

At July's meeting of the Development Control Committee we had a varied agenda and Members were pleased to support our housing partner Calico by granting planning permission for 61 properties on land at Kinross Street and Airdrie Crescent, which will see a mixture of 2 and 3 bedroom family homes and 3 bungalows all for affordable rent.

At the committee meetings in August and September Members dealt with a range of smaller household and commercial applications assisting both residents and businesses of the borough to improve their properties and strengthen our commercial sector.
