<b>75. Health and Safety Intervention Plan</b>	
--	--

**Purpose** The regulatory team responsible for Health & Safety at Work enforcement must have in place an intervention plan to meet the requirements of statutory guidance. This report formally consults Executive on the plans prior to their approval at Full Council.

**Reason for Decision** Section 18 of the Health & Safety at Work Act 1974 and the subsequent National Local Authority Enforcement Code for Health and Safety (The Code) provide frameworks within which the Environmental Health & Licensing Team must operate when carrying out its public protection duties within workplaces. The frameworks require the Council to have plans in place to control these activities. The intervention plan appended to this report has been prepared to satisfy the statutory requirements and outline the services to be provided over the coming year.

**Decision** That Full Council be recommended to approve of the Health and Safety Intervention Plan for 2016/2017, detailed in Appendix 1 to this report.
